1. Location:

25X1

2. Designation: Plant No 466 up to October 1947, Red October Plant since October 1947.3. Plant Manager: A Soviet air force colonel.4. Work force: 800 to 1,000 Soviets, including about 70 percent women, in each of the three shifts. \*\*5. Production:

a. Electric motors, about 15 per day.

b. Parts of turbo-jet power plants, which were delivered to the Flugov Plant. The final assembly of the aircraft took place there.

c. Inspection tests for the finished turbo-jet power plants and test runs at seven or eight test stands operating day and night.

d. [redacted] six finished turbo-jet power plants were shipped by rail from the plant every day.

25X1

6. Plans: [redacted] within a short time all required engine parts were scheduled to be manufactured in the Red October Plant and that also the final assembly was to be transferred there. Further buildings were scheduled for construction.

25X1

[redacted] Comment: Report confirmed previous information on the Red October Plant in LENINGRAD.

The statement that about 150 power plants were manufactured every month in the spring of 1949 seems to be exaggerated when
